NOTES TO THE FINANCIAL STATEMENTS - YEAR ENDED MARCH 31, 2013

1. GENERAL INFORMATION

The Arvind Overseas (Mauritius) Limited is a private company incorporated and domiciled in Mauritius. The address of its registered office is 10, Frère Félix de Valois Street, Port Louis, Mauritius and the place of business is at La Tour Koenig, Pointe aux Sables. Its ultimate holding company is Arvind Limited, incorporated in India. The Company ceased business in August 2004. These financial statements will be submitted for consideration and approval at the forthcoming Annual Meeting of Shareholders of the Company.

2. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

The financial statements of The Arvind Overseas (Mauritius Limited) have been prepared under the **break up basis**. All assets have been stated at the lower of cost and net realisable value. All long term assets have been reclassified as current.

(b) Foreign currencies**(i) Functional and presentation currency**

Items included in the financial statements are measured using Mauritian rupees, the currency of the primary economic environment in which the entity operates ("functional currency"). The financial statements are presented in Mauritian rupees, which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date the fair value was determined.

2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(c) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, if the deferred income tax arises from initial recognition of an asset or liability in a transaction, other than a business combination, that at the time of the transaction affects neither accounting nor taxable profit or loss, it is not accounted for.

Deferred income tax is determined using tax rates that have been enacted by the end of the reporting period and are expected to apply in the period when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which deductible temporary differences can be utilised.

(d) Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources that can be reliably estimated will be required to settle the obligation.
