The revenue growth of 44% in Branded Apparel and Retail business segments and 37% revenue growth in Textile business was the key driver for such an impressive financial performance at the consolidated level. EBIDTA margin has improved to 14.6% from 13.8% in the corresponding quarter of the previous year.

Commenting on the results as well as outlook of the Company, Mr. Jayesh Shah, Director & Chief Financial Officer and Director said: "The growth across all the product segments is led by growth in domestic market on the back of strong B2C business model which Arvind has created. With fall in cotton prices, the demand for fabrics, which has been sluggish for past few months, will increase. We believe that Arvind is well poised to achieve 15%-20% revenue growth during the current year and also to maintain the operating margins."
